Our Impact Over 5 Years, Thanks to You.

From 2021 to 2026, your donations have transformed the lives of thousands of young people in the care of the DYP.

Since 1998, the Fondation des jeunes de la DPJ has served as a vital safety net for vulnerable youth. The Foundation funds what the government does not cover and what would typically be provided by parents: personalized, timely, and compassionate support across all areas of their lives.

Supporting a young person today means building the Quebec of tomorrow. Over the last five years, your support has helped triple the Foundation's investment in the future of young people. This is a giant leap forward — and it's just the beginning.

Thanks to you, since 2021, the Foundation has expanded the resources available to children and youth, broadened its reach across Quebec, and enabled thousands of young people aged 0 to 25 to believe in their future and begin building it.

Thank you!

"It is a pleasure to present the highlights of our growth together."

The Power of Community Working for Young People

In 5 years, the Foundation has gone from 11 to 61 partners working together to implement the Foundation's programs and fulfill its mission for young people across Quebec.

To bring about lasting change in the life trajectories of youth in the care of the DPJ, it takes mobilizing expertise, partners, and communities around a shared goal: giving young people every opportunity to succeed.

"It's inspiring to see a growing number of partners join forces with us, across Quebec, to support youth under the care of the DYP, and their transition to adulthood. Working together, we can make a real difference."
